Education

University at Albany, NY

Master of Science in Data Science ; Dean's List all semesters

August 2022 – December 2024

GPA: 3.7 / 4.00

International Institute of Information Technology Bangalore

Post Graduate Diploma in Artificial Intelligence and Machine Learning

March 2022 – April 2024

GPA: 4.00 / 4.00

Jawaharlal Nehru Technological University, India

Bachelor of Technology in Computer Science

June 2017 – May 2021

GPA: 3.84 / 4.00

Experience

Data Glacier | *Data science intern*

July 2024 – Present

- Developed a semantic summarization and text-ranking system using advanced language model (BERT) to generate concise summaries for large documents. Enhanced text ranking to prioritize important sections in real-time search results.
- Reduced average document length by 60%, while maintaining 95% relevancy of key insights for users. Improved search accuracy and response time for knowledge retrieval by 35%.

University at Albany | *Graduate Teaching Assistant*

January 2023 – September 2023

- Worked as Teaching assistant for 'Machine learning' course. Responsibilities include helping undergraduates in practical handson lab, reviewing and grading assignments. Mentored 60+ students, boosting exam scores by an average of 10%.

Infosys systems | *Software Developer*

September 2021 – May 2022

- Engineered collaborative solutions at American Express, leveraging Jira to boost Maven-based build efficiency by 19%.
- Applied RESTful web services, Agile methods and coordinated with end users boosting client satisfaction by 10%.

Epam Systems, India | *Software Development intern*

May 2021 – August 2021

- Developed various web features with AngularJS and Node JS, contributing to a 20% boost in user functionality.
- Deployed a component library, integrated a search widget with EPAM InfoNgen API, achieving a 15% efficiency boost.

ServiceNow, India | *Software Development intern*

July 2020 – October 2020

- Implemented 'Inline variable - value preview' in ServiceNow code editor, delivering a 30% improvement in efficiency.
- Streamlined debugging, resulting in a significant 20% decrease in debugging time and enhanced developer experience.

Projects

Log anomaly Detector | *NLP, Neural Networks*

March 2024

- Designed a solution to identify unusual patterns and potential security threats within large-scale log data involving preprocessing vast datasets, feature extraction, and model training to enhance detection accuracy.
- Developed and maintained visualizations and dashboards that effectively communicate trends, patterns, and anomalies.

Automatic Credit Card Approval Predictor | *Python, Predictive algorithms*

October 2023

- Automated credit card approval predictions using Supervised Learning, attaining an 87.01% accuracy rate. Streamlined credit card applications for commercial banks, enhancing operational efficiency through Predictive Modeling techniques.

ServiceNow Digital certification management | *ServiceNow, Solidity, NodeJS*

May 2020

- Created an application that integrates the ServiceNow platform with Blockchain, enabling businesses and recruiters to verify the validity of certificates and simplifying the reimbursement process for government organizations with 95% efficiency.

Skills

Languages, Tools & Frameworks : Python, Java, R, SQL, JavaScript, AWS, Jira, Bitbucket, Docker, React JS, Spring

Libraries & Visualization: TensorFlow, Keras, PyTorch, NLTK, OpenCV, Scikit-Learn, NumPy, SciPy, Word2Vec, Matplotlib, Pandas, Spacy, PIL, Dlib, BeautifulSoup, SimpleITK, Transformers, Tableau, Power BI

ML: Data analysis, Regression, Classification, Clustering, Supervised & Unsupervised learning, Dimensionality Reduction, Data Cleaning, Data Wrangling, Data Mining, Exploratory Data Analysis, Cross-validation, Predictive modeling

Natural Language Processing: Tokenization, Stemming, Lemmatization, Word Embeddings, Topic modeling, WordNet

Publications

Chiguru, Sameeksha. "Classifying the News: A Study on Identifying Fake News with Machine Learning." International Journal of Advanced Research in Engineering and Applied Sciences (IJARESM), vol. 11, no. 9, 2023. [View Paper]

Certifications

- AWS Certified Machine Learning Engineer - Associate
- Google Professional Machine Learning Engineer
- AWS Certified Cloud Practitioner
- Stanford University's Machine Learning Certification - Andrew Ng
